

PATIENT INFORMATION

SMC offers several sliding fee discounts on our services base on household income and family size.

As a Federally Qualified Community Health Center, **we are required to obtain all of the following information for our records.**

If the required eligibility information is not available at time of visit, patient will be triaged by a clinician to determine medical condition. If clinician determines patient must be seen, patient will be seen and then payment arrangement will be made for the visit. If clinician determines that patient does not need to be seen on that day, we will offer patient an appointment within the next 48 hours or require patient to pay \$80.00 toward the office visit. Patient will have (7) seven days to bring the required information. Once received, patient might be entitled to a refund, which will be processed within (5) five business days.

Notes:

Pharmacy – SMC provides prescription drugs at a sliding fee rate to patients, and discounts dispensing fees based on the patient sliding fee discount eligibility. Nominal Charge/Minimum Pay patients will only pay \$6, inclusive of medication cost and dispensing fee. The remaining sliding fee scale eligible patients, 25%, 50% and 75%, will pay for prescription drugs at cost plus a dispensing fee of \$8, \$10 and \$12 respectively.

Eyeglasses – Eyeglasses are charged separately from Optometry visits. The cost of eyeglasses to eligible sliding fee scale patients start at \$49 for single vision, \$69 for bifocal and \$129 for progressive.

All patients must be recertified annually or at 1st visit after March 1st every year
